An Outline of Philosophy (Routledge Classics)

Bertrand Russell

An Outline of Philosophy (Routledge Classics) Bertrand Russell

In his controversial book *An Outline of Philosophy*, first published in 1927, Bertrand Russell argues that humanity demands consideration solely as the instrument by which we acquire knowledge of the universe. From our inner-world to the outer-world, from our physical world to the universe, his argument separates modern scientific knowledge and our 'seeming' consciousness. These innovative perspectives on philosophy made a significant contribution to the discourse on the meaning, relevance and function of philosophy which continues to this day.
