Grace and Tom Penderford had a strong marriage, a comfortable home in the English countryside and a healthy baby girl, Chloe. They were happy. They were normal.

But soon after Chloe turns three, tragedy strikes when a disease called Sepsis claims the life of their daughter, devastating their small family. The Penderford's had never heard of Sepsis - a cruel, indiscriminate disease that takes a life somewhere in the world every three and a half seconds. Now, with their world crumbling, they must mend each others broken hearts ... and try to save their marriage if they can.

To find out more about this tragic disease visit www.sepsis.org where you can learn to recognise the symptoms of Sepsis to help protect your loved ones. All proceeds from the sale of Three and a Half Heartbeats on Amazon.com are divided equally between Sepsis Alliance, an advocacy group in the United States and the UK Sepsis Trust, so by buying the story, you will help them in their battle to raise awareness and save lives. Thank you for making a difference.
