**Advanced Piping Design: v. II (Process Piping Design)** Peter Smith, Rutger Botermans

Advanced Piping Design is an intermediate-level handbook covering guidelines and procedures on process plants

and interconnecting piping systems. As a follow up with Smith's best-selling work published in 2007 by Gulf

Publishing Company, The Fundamentals of Piping Design, this handbook contributes more customized information

on the necessary process equipment required for a suitable plant layout, such as pumps, compressors, heat exchangers, tanks, cooling towers and more! While integrating equipment with all critical design considerations,

these two volumes together are must-haves for any engineer continuing to learn about piping design and process equipment.
