Real-Time Digital Signal Processing from MATLAB to C with the TMS320C6x DSK

III, Thaddeus Baynard Welch, Cameron H.G. Wright, Michael G. Morrow, Thad B. Welch

Real-Time Digital Signal Processing from MATLAB to C with the TMS320C6x DSK III, Thaddeus Baynard Welch, Cameron H.G. Wright, Michael G. Morrow, Thad B. Welch

From personal music players to anti-lock brakes and advanced digital flight controllers, the demand for real-time digital signal processing (DSP) continues to grow. Mastering real-time DSP is one of the most challenging and time-consuming pursuits in the field, exacerbated by the lack of a resource that solidly bridges the gap between theory and practice. Recognizing that there is a better way forward, accomplished experts Welch, Wright, and Morrow offer Real-Time Digital Signal Processing from MATLAB to C with the TMS320C6x DSK.

This book collects all of the necessary tools in a single, field-tested source of unrivaled authority. The authors seamlessly integrate theory with easy-to-use, inexpensive hardware and software tools in an approachable and hands-on manner. Using abundant examples and exercises in a step-by-step approach, they work from familiar interfaces such as MATLAB® to running algorithms in real-time on industry-standard DSP hardware. For each concept, the book uses a four-step methodology: a brief review of relevant theory; demonstration of the concept in winDSK6, an easy-to-use software tool; explanation and demonstration of MATLAB techniques for implementation; and explanation of the necessary C code to implement the algorithms in real time.

Covering a broad spectrum of topics in a hands-on, concise, and approachable way, Real-Time Digital Signal Processing from MATLAB to C with the TMS320C6x DSK paves the way toward mastery of real-time DSP. Essential source code is available for download.

From reader reviews:

Jane Garner:

Have you spare time for any day? What do you do when you have much more or little spare time? Yep, you can choose the suitable activity intended for spend your time. Any person spent their own spare time to take a go walking, shopping, or went to the particular Mall. How about open or read a book eligible Real-Time Digital Signal Processing from MATLAB to C with the TMS320C6x DSK? Maybe it is to get best activity for you. You realize beside you can spend your time together with your favorite's book, you can more intelligent than before. Do you agree with it is opinion or you have additional opinion?

Rachel Louviere:

In this 21st millennium, people become competitive in every single way. By being competitive now, people have do something to make these people survives, being in the middle of the actual crowded place and notice by means of surrounding. One thing that at times many people have underestimated the idea for a while is reading. Sure, by reading a book your ability to survive boost then having chance to remain than other is high. For you who want to start reading the book, we give you this particular Real-Time Digital Signal Processing from MATLAB to C with the TMS320C6x DSK book as beginning and daily reading reserve. Why, because this book is more than just a book.

Corey Smith:

Nowadays reading books be a little more than want or need but also get a life style. This reading habit give you lot of advantages. Advantages you got of course the knowledge the actual information inside the book that will improve your knowledge and information. The knowledge you get based on what kind of reserve you read, if you want drive more knowledge just go with knowledge books but if you want sense happy read one with theme for entertaining like comic or novel. The particular Real-Time Digital Signal Processing from MATLAB to C with the TMS320C6x DSK is kind of e-book which is giving the reader unforeseen experience.

Olga Andres:

Spent a free a chance to be fun activity to complete! A lot of people spent their down time with their family, or their friends. Usually they undertaking activity like watching television, about to beach, or picnic from the park. They actually doing same task every week. Do you feel it? Would you like to something different to fill your free time/ holiday? Could be reading a book can be option to fill your free time/ holiday. The first thing that you will ask may be what kinds of reserve that you should read. If you want to test look for book, may be the reserve untitled Real-Time Digital Signal Processing from MATLAB to C with the TMS320C6x DSK can be very good book to read. May be it could be best activity to you.
