Shepherd's Crook (An Animals in Focus Mystery) Sheila Webster Boneham

Animal photographer Janet MacPhail has just arrived at a shepherding competition with her Australian Shepherd, Jay, when she learns that two-dozen sheep have disappeared. Police think the animals have wandered off, but Janet is convinced they've been stolen.

Janet knows she should leave the snooping to the police while she attends to her own problems—new living arrangements, her mom's wedding plans, puppy and kitten antics, and extremists bent on keeping people from having pets. But when a livestock handler turns up dead, the police and a pair of thugs pay Janet way more attention than she likes. Setting out to find answers, Janet puts herself in the killer's crosshairs.

Praise:
