Enseñanza de la Física a través de simulaciones (Manuales científico-técnicos) (Spanish Edition)

Elvira/Romero, Carlos Martínez

Esta obra expone de forma amplia, pero también clara y concisa, los principios fundamentales de la Física básica a lo largo de catorce capítulos en los que se plantean demostraciones matemáticas con todos los pasos seguidos. Además, para amenizar la lectura, se intercalan en el texto algunas curiosidades o se citan aplicaciones prácticas que tienen los conceptos presentados en la vida real.

Así mismo, para facilitar la comprensión de los contenidos, todos los capítulos finalizan con una serie de simulaciones interactivas originales, en archivos html, por lo que no se requiere la instalación de ningún programa. El lector puede acceder a las simulaciones en la página web <http://fisicasintesis.web44.net> y usarlas para repasar la teoría ya estudiada o para interactuar con ellas, modificando los valores numéricos de las variables que intervienen en cada simulación, con el fin de comprobar los resultados de los ejercicios propuestos en clase.

From reader reviews:

Benjamin Ward:

Why don't make it to be your habit? Right now, try to prepare your time to do the important action, like looking for your favorite reserve and reading a guide. Beside you can solve your short lived problem; you can add your knowledge by the publication entitled Enseñanza de la Física a través de simulaciones (Manuales científico-técnicos) (Spanish Edition). Try to stumble through book Enseñanza de la Física a través de simulaciones (Manuales científico-técnicos) (Spanish Edition) as your friend. It means that it can to become your friend when you really feel alone and beside that course make you smarter than in the past. Yeah, it is very fortunated to suit your needs. The book makes you more confidence because you can know almost everything by the book. So , let's make new experience along with knowledge with this book.

Carmen Fields:

This Enseñanza de la Física a través de simulaciones (Manuales científico-técnicos) (Spanish Edition) are usually reliable for you who want to be a successful person, why. The key reason why of this Enseñanza de la Física a través de simulaciones (Manuales científico-técnicos) (Spanish Edition) can be among the great books you must have is definitely giving you more than just simple reading through food but feed an individual with information that probably will shock your earlier knowledge. This book is definitely handy, you can bring it everywhere and whenever your conditions in e-book and printed people. Beside that this Enseñanza de la Física a través de simulaciones (Manuales científico-técnicos) (Spanish Edition) giving you an enormous of experience such as rich vocabulary, giving you trial run of critical thinking that we all know it useful in your day pastime. So , let's have it and luxuriate in reading.

Hilary Williams:

Reading a guide tends to be new life style with this era globalization. With reading through you can get a lot of information that can give you benefit in your life. Together with book everyone in this world can certainly share their idea. Guides can also inspire a lot of people. A lot of author can inspire their very own reader with their story as well as their experience. Not only the story that share in the books. But also they write about advantage about something that you need case in point. How to get the good score toefl, or how to teach your children, there are many kinds of book that exist now. The authors these days always try to improve their ability in writing, they also doing some analysis before they write to their book. One of them is this Enseñanza de la Física a través de simulaciones (Manuales científico-técnicos) (Spanish Edition).

Gary Stark:

Within this era which is the greater person or who has ability to do something more are more important than other. Do you want to become one among it? It is just simple solution to have that. What you should do is just spending your time very little but quite enough to have a look at some books. One of many books in the top record in your reading list is definitely Enseñanza de la Física a través de simulaciones (Manuales

científico-técnicos) (Spanish Edition). This book and that is qualified as The Hungry Inclines can get you closer in becoming precious person. By looking way up and review this reserve you can get many advantages.
