ANOVA and ANCOVA: A GLM Approach

Andrew Rutherford

ANOVA and ANCOVA: A GLM Approach Andrew Rutherford

Provides an in-depth treatment of ANOVA and ANCOVA techniques from a linear model perspective

ANOVA and ANCOVA: A GLM Approach provides a contemporary look at the general linear model (GLM) approach to the analysis of variance (ANOVA) of one- and two-factor psychological experiments. With its organized and comprehensive presentation, the book successfully guides readers through conventional statistical concepts and how to interpret them in GLM terms, treating the main single- and multi-factor designs as they relate to ANOVA and ANCOVA.

The book begins with a brief history of the separate development of ANOVA and regression analyses, and then goes on to demonstrate how both analyses are incorporated into the understanding of GLMs. This new edition now explains specific and multiple comparisons of experimental conditions before and after the Omnibus ANOVA, and describes the estimation of effect sizes and power analyses leading to the determination of appropriate sample sizes for experiments to be conducted. Topics that have been expanded upon and added include:

- Discussion of optimal experimental designs
- Different approaches to carrying out the simple effect analyses and pairwise comparisons with a focus on related and repeated measure analyses
- The issue of inflated Type 1 error due to multiple hypotheses testing
- Worked examples of Shaffer's R test, which accommodates logical relations amongst hypotheses

ANOVA and ANCOVA: A GLM Approach, Second Edition is an excellent book for courses on linear modeling at the graduate level. It is also a suitable reference for researchers and practitioners in the fields of psychology and the biomedical and social sciences.

From reader reviews:

Peggy Mitchum:

What do you consider book? It is just for students as they are still students or this for all people in the world, exactly what the best subject for that? Just simply you can be answered for that issue above. Every person has distinct personality and hobby per other. Don't to be pressured someone or something that they don't would like do that. You must know how great and important the book ANOVA and ANCOVA: A GLM Approach. All type of book can you see on many sources. You can look for the internet solutions or other social media.

Wiley Wagner:

Typically the book ANOVA and ANCOVA: A GLM Approach will bring you to definitely the new experience of reading a book. The author style to elucidate the idea is very unique. Should you try to find new book to see, this book very suited to you. The book ANOVA and ANCOVA: A GLM Approach is much recommended to you to study. You can also get the e-book from the official web site, so you can more easily to read the book.

Carlton Little:

ANOVA and ANCOVA: A GLM Approach can be one of your basic books that are good idea. We recommend that straight away because this publication has good vocabulary that can increase your knowledge in vocabulary, easy to understand, bit entertaining however delivering the information. The author giving his/her effort that will put every word into pleasure arrangement in writing ANOVA and ANCOVA: A GLM Approach but doesn't forget the main point, giving the reader the hottest and also based confirm resource facts that maybe you can be among it. This great information can easily drawn you into fresh stage of crucial considering.

Calvin Copher:

This ANOVA and ANCOVA: A GLM Approach is great publication for you because the content which is full of information for you who else always deal with world and possess to make decision every minute. This particular book reveal it details accurately using great manage word or we can say no rambling sentences inside. So if you are read that hurriedly you can have whole facts in it. Doesn't mean it only offers you straight forward sentences but hard core information with wonderful delivering sentences. Having ANOVA and ANCOVA: A GLM Approach in your hand like getting the world in your arm, details in it is not ridiculous one particular. We can say that no book that offer you world in ten or fifteen moment right but this guide already do that. So , it is good reading book. Hello Mr. and Mrs. occupied do you still doubt which?
