Information Processing Speed in Clinical Populations (Studies on Neuropsychology, Neurology and Cognition)

Information Processing Speed in Clinical Populations (Studies on Neuropsychology, Neurology and Cognition)

Although investigated for over 100 years, it is only now that we are beginning to understand how speed of information processing is affected in various clinical populations. Processing speed has a major impact on higher level cognitive abilities and is extremely vulnerable to neurological insult and the aging process. The importance of processing speed with respect to brain function, cognition and overall quality of life is now the focus of a new and exciting body of research in clinical populations.

This book provides a scholarly and clinically sensitive review of research on processing speed and its issues in clinical populations. Readers will come away with an in-depth understanding of human information processing speed including its historical development, its relationship to other cognitive functions, the developmental course of the ability across the lifespan, and its impact on everyday life in various clinical populations. Other highlights of the text are its discussion of the speed vs. accuracy trade-off, tools available for measuring processing speed, the unfolding research on genetic contributions to processing speed, and the latest ideas in rehabilitation.

With contributing authors who are experts in their fields, *Information Processing Speed in Clinical Populations* represents a valuable resource for researchers, scholars, and clinicians by providing a concise summary of the existing research on processing speed across an array of disciplines and populations.

From reader reviews:

Daria Gertz:

Nowadays reading books become more than want or need but also be a life style. This reading habit give you lot of advantages. Advantages you got of course the knowledge even the information inside the book in which improve your knowledge and information. The knowledge you get based on what kind of guide you read, if you want get more knowledge just go with schooling books but if you want feel happy read one along with theme for entertaining including comic or novel. Typically the Information Processing Speed in Clinical Populations (Studies on Neuropsychology, Neurology and Cognition) is kind of guide which is giving the reader capricious experience.

Louise Hawkins:

This Information Processing Speed in Clinical Populations (Studies on Neuropsychology, Neurology and Cognition) are generally reliable for you who want to be described as a successful person, why. The reason why of this Information Processing Speed in Clinical Populations (Studies on Neuropsychology, Neurology and Cognition) can be one of many great books you must have will be giving you more than just simple examining food but feed anyone with information that might be will shock your prior knowledge. This book is handy, you can bring it almost everywhere and whenever your conditions both in e-book and printed types. Beside that this Information Processing Speed in Clinical Populations (Studies on Neuropsychology, Neurology and Cognition) forcing you to have an enormous of experience including rich vocabulary, giving you demo of critical thinking that we all know it useful in your day activity. So , let's have it appreciate reading.

Ryan Moore:

Your reading sixth sense will not betray an individual, why because this Information Processing Speed in Clinical Populations (Studies on Neuropsychology, Neurology and Cognition) reserve written by well-known writer who knows well how to make book that could be understand by anyone who else read the book. Written inside good manner for you, still dripping wet every ideas and creating skill only for eliminate your own hunger then you still skepticism Information Processing Speed in Clinical Populations (Studies on Neuropsychology, Neurology and Cognition) as good book not only by the cover but also from the content. This is one book that can break don't judge book by its protect, so do you still needing yet another sixth sense to pick this kind of!? Oh come on your studying sixth sense already alerted you so why you have to listening to one more sixth sense.

Cassandra Giron:

You may get this Information Processing Speed in Clinical Populations (Studies on Neuropsychology, Neurology and Cognition) by go to the bookstore or Mall. Merely viewing or reviewing it can to be your solve difficulty if you get difficulties on your knowledge. Kinds of this reserve are various. Not only simply

by written or printed but in addition can you enjoy this book simply by e-book. In the modern era like now, you just looking because of your mobile phone and searching what their problem. Right now, choose your own ways to get more information about your guide. It is most important to arrange you to ultimately make your knowledge are still upgrade. Let's try to choose right ways for you.
