## **L'autismo (Farsi un'idea) (Italian Edition)** Luca Surian

Incapaci di comunicare con gli altri e di sviluppare nuove amicizie, costretti a muoversi in un mondo sociale che appare loro privo di significato e di interesse o addirittura minaccioso e ostile: sono i bambini colpiti dall'autismo, un disturbo dello sviluppo neuropsicologico che si manifesta prima dei tre anni e permane in età adulta, ma che può essere notevolmente attenuato con opportuni programmi di intervento educativo. Uno dei maggiori esperti del problema schiude la porta di questa condizione della mente umana spiegandoci che cos'è l'autismo, dalle sue possibili cause biologiche alla diagnosi, ai processi cognitivi e comunicativi che lo caratterizzano; dedica infine una parte importante del volume ai programmi di intervento che, per essere efficaci, devono garantire una stretta collaborazione tra genitori, insegnanti e operatori dei servizi sanitari.
