In these challenging economic times it's more important than ever for women to be in control of their economic future... and go from wherever they are today, financially, to where they want to be. It's a time when it is *possible to find opportunity and secure financial security for life.*

It's Rising Time! is a call to women to rise up to their potential and to rise above anything and everything that's holding them back. It's a validation of stamina and tenacity – and a challenge to women to push beyond where most believe they can go in terms of taking control of their future.

Kim Kiyosaki believes that It's Rising Time!...for women who have a vision for what they want in life and are willing to do what it takes to turn that vision into a reality.

In this new book, Kim explains what it really takes to go from wherever you are financially today to where you want to be. It's a book of courage and creativeness, time-tested principles and real-life stories of success, setbacks and comebacks... with a few surprises along the way. Kim shares candid stories from women and men who have been through the good, the bad and the ridiculous—and the lessons they learned.

Readers will experience the steps in the process of growth and change as Kim introduces her Triple-A Triangle – for Aspiring, Acquiring and Applying all that you want and learn and can do – as the process through which we initiate and create change. This book addresses what happens when you get stuck in the process as well as how to recover from a setback—and what to do when it just gets too hard.

Kim believes that it's time for women's true strength and determination to surface. It's Rising Time is an important book because today we're faced with new issues and new financial challenges and there is a pressing need for new answers and new ideas. This book will help women navigate these unsettling and challenging economic times and take the first steps for making change in their lives—and taking charge of—their lives.

It's Rising Time! will inspire, educate and lead women to do what it takes to realize their financial dreams and enjoy the rewards of financial security for life.

“... the next giant economic growth wave won't come from the Internet or China or India, but from empowering women.”

– The Economist
