Sugars That Heal: The New Healing Science of Glyconutrients Emil I. Mondo, Mindy Kitei

"Sugars that heal" it sounds like a contradiction in terms, but it's the key to one of the most important breakthroughs in recent medical science. We've all been bombarded with warnings about the evils of consuming too much sugar. But, in fact, for our bodies to function properly, we need small amounts of eight essential sugars, only two of which--glucose and galactose--are commonly found in our limited, overprocessed diets. When all eight sugars are available, the health benefits can be breathtaking: Individuals regain their ability to fight disease, reactivate their immune systems, and are able to ward off infection. Based on cutting-edge research in the rapidly evolving science of glyconutrients, Sugars That Heal is an exciting new approach to health and disease prevention.

As medical doctor and scientific researcher Emil Mondo explains, these eight essential sugars, known as saccharides, are the basis of multicellular intelligence--the ability of cells to communicate, cohere, and work together to keep us healthy and balanced. Even tiny amounts of these sugars--or lack of them--have profound effects. In test after test conducted at leading institutes around the world, saccharides have been shown to lower cholesterol, increase lean muscle mass, decrease body fat, accelerate wound healing, ease allergy symptoms, and allay autoimmune diseases such as arthritis, psoriasis, and diabetes. Bacterial infections, including the recurrent ear infections that plague toddlers, often respond remarkably to saccharides, as do many viruses--from the common cold to the flu, from herpes to HIV. The debilitating symptoms of chronic fatigue syndrome, fibromyalgia, and Gulf War syndrome frequently abate after adding saccharides. And, for cancer patients, saccharides mitigate the toxic effects of radiation and chemotherapy--while augmenting their cancer-killing effects, resulting in prolonged survival and improved quality of life.

Sugars That Heal offers a revolutionary new health plan based on the science of glyconutrients--foods that contain saccharides. It gives authoritative guidance for getting all eight saccharides conveniently into your diet through supplements and readily available foods, as well as detailed information on correct dosages. Here, too, are chapters dealing with the special nutritional needs of people suffering from cancer, heart disease, asthma, and neurological disorders, and methods for using glyconutrients to treat depression, obesity, and ADHD.

The more doctors learn about glyconutrients, the more excited they become about their long-term fundamental health benefits. Now, with this new book, the breakthroughs in the study of glyconutrients are available to everyone. Whether your goal is to prevent disease, live longer and better, or treat a serious illness that has eluded conventional medicine, Sugars That Heal is your essential guide to complete health.

From the Hardcover edition.

From reader reviews:

Debra Richardson:

As people who live in often the modest era should be up-date about what going on or data even knowledge to make these individuals keep up with the era which is always change and move forward. Some of you maybe will probably update themselves by looking at books. It is a good choice for you personally but the problems coming to you is you don't know what one you should start with. This Sugars That Heal: The New Healing Science of Glyconutrients is our recommendation to help you keep up with the world. Why, since this book serves what you want and want in this era.

Joseph Lunsford:

Do you considered one of people who can't read enjoyable if the sentence chained in the straightway, hold on guys this aren't like that. This Sugars That Heal: The New Healing Science of Glyconutrients book is readable by means of you who hate the straight word style. You will find the facts here are arrange for enjoyable reading experience without leaving possibly decrease the knowledge that want to supply to you. The writer involving Sugars That Heal: The New Healing Science of Glyconutrients content conveys the thought easily to understand by most people. The printed and e-book are not different in the articles but it just different such as it. So , do you nonetheless thinking Sugars That Heal: The New Healing Science of Glyconutrients is not loveable to be your top collection reading book?

James Furlow:

The reserve with title Sugars That Heal: The New Healing Science of Glyconutrients includes a lot of information that you can study it. You can get a lot of benefit after read this book. This book exist new understanding the information that exist in this guide represented the condition of the world today. That is important to yo7u to learn how the improvement of the world. That book will bring you with new era of the syndication. You can read the e-book on your own smart phone, so you can read the idea anywhere you want.

Hilda Dolan:

This Sugars That Heal: The New Healing Science of Glyconutrients is great publication for you because the content that is certainly full of information for you who have always deal with world and still have to make decision every minute. This specific book reveal it info accurately using great organize word or we can state no rambling sentences included. So if you are read this hurriedly you can have whole details in it. Doesn't mean it only gives you straight forward sentences but tricky core information with attractive delivering sentences. Having Sugars That Heal: The New Healing Science of Glyconutrients in your hand like having the world in your arm, details in it is not ridiculous one. We can say that no publication that offer you world inside ten or fifteen small right but this book already do that. So , this is certainly good reading book. Hey there Mr. and Mrs. occupied do you still doubt which?
