A Thousand Miles up the Nile Amelia Ann Blanford Edwards

FIRST published in 1877, this book has been out of print for several years. I have therefore very gladly revised it for a new and cheaper edition. In so revising it, I have corrected some of the historical notes by the light of later discoveries; but I have left the narrative untouched. Of the political changes which have come over the land of Egypt since that narrative was written, I have taken no note; and because I in no sense offer myself as a guide to others, I say nothing of the altered conditions under which most Nile travellers now perform the trip. All these things will be more satisfactorily, and more practically, learned from the pages of this book. AMPÈRE has put Egypt in an epigram. "A donkey-ride and a boating-trip interspersed with ruins" does, in fact, sum up in a single line the whole experience of the Nile traveller. Àpropos of these three things—the donkeys, the boat, and the ruins—it may be said that a good English saddle and a comfortable dahabeeyah add very considerably to the pleasure of the journey; and that the more one knows about the past history of the country, the more one enjoys the ruins.
