## **Dal petrolio alla green economy (Italian Edition)** Simone Malacrida

Questo libro, primo di una trilogia energetica, nasce dall'esigenza di conciliare, in unico scritto strutturato, le differenti relazioni che l'energia ha nei confronti della società, della politica, dell'economia, dell'ambiente e della tecnologia presentando un panorama di vasto respiro sia nell'analisi di ogni singola fonte energetica sia nella disamina dei protagonisti mondiali e locali. Privo di pregiudizi ideologici, si caratterizza come un quadro della situazione attuale per comprendere l'evoluzione futura dell'energia e della società e per confrontarsi con l'intrinseco tema della complessità.
