Dismantlement and Destruction of Chemical, Nuclear and Conventional Weapons (Nato Science Partnership Subseries: 1)

Dismantlement and Destruction of Chemical, Nuclear and Conventional Weapons (Nato Science Partnership Subseries: 1)

The end of the Cold War opened unprecedented opportunities for reductions in weapons of mass destruction. With these opportunities came new challenges, both scientific and political. Traditionally approached by different groups, the scientific, technical and political challenges are inextricably intertwined. Agreements to dismantle and destroy chemical, nuclear and conventional weapons, after having been negotiated via diplomatic channels, require the expertise of scientists associated with their development to determine the safest and most environmentally sound methods of destruction. It is in this context that representatives from sixteen countries and five international organizations were convened jointly by NATO, the Ministry of Foreign Affairs of the Federal Republic of Germany and the State Government of North Rhine Westphalia 19-21 May, 1996 in a meeting near Bonn to take stock of worldwide efforts to destroy and dismantle chemical, nuclear and conventional weapons remaining after the end of the Cold War. NATO support was provided under the auspices of the NATO Science Committee's Panel on Disarmament Technologies. The conference brought together the major actors involved in the dismantlement and destruction of chemical, nuclear and conventional weapons, highlighted the substantial accomplishments achieved in this area and pinpointed the remaining technical obstacles still to be overcome. It also underlined the critical importance of transparency, data exchange and verification as indispensable preconditions for disarmament and cooperative security.

From reader reviews:

Christopher Barnes:

The book Dismantlement and Destruction of Chemical, Nuclear and Conventional Weapons (Nato Science Partnership Subseries: 1) can give more knowledge and also the precise product information about everything you want. Why must we leave the great thing like a book Dismantlement and Destruction of Chemical, Nuclear and Conventional Weapons (Nato Science Partnership Subseries: 1)? A few of you have a different opinion about publication. But one aim this book can give many data for us. It is absolutely right. Right now, try to closer with the book. Knowledge or data that you take for that, you are able to give for each other; you are able to share all of these. Book Dismantlement and Destruction of Chemical, Nuclear and Conventional Weapons (Nato Science Partnership Subseries: 1) has simple shape however, you know: it has great and big function for you. You can appear the enormous world by wide open and read a e-book. So it is very wonderful.

Bruce Brown:

Hey guys, do you desires to finds a new book to learn? May be the book with the title Dismantlement and Destruction of Chemical, Nuclear and Conventional Weapons (Nato Science Partnership Subseries: 1) suitable to you? The particular book was written by popular writer in this era. The particular book untitled Dismantlement and Destruction of Chemical, Nuclear and Conventional Weapons (Nato Science Partnership Subseries: 1) is the main of several books which everyone read now. This specific book was inspired a lot of people in the world. When you read this guide you will enter the new way of measuring that you ever know prior to. The author explained their thought in the simple way, and so all of people can easily to be aware of the core of this guide. This book will give you a lots of information about this world now. To help you see the represented of the world in this book.

Alice Bowers:

Spent a free time and energy to be fun activity to do! A lot of people spent their free time with their family, or all their friends. Usually they doing activity like watching television, about to beach, or picnic inside the park. They actually doing ditto every week. Do you feel it?
