Classification and Clustering documents the proceedings of the Advanced Seminar on Classification and Clustering held in Madison, Wisconsin on May 3-5, 1976.

This compilation discusses the relationship between multidimensional scaling and clustering, distribution problems in clustering, and botryology of botryology. The graph theoretic techniques for cluster analysis algorithms, data dependent clustering techniques, and linguistic approach to pattern recognition are also elaborated. This text likewise covers the discriminant analysis when scale contamination is present in the initial sample and statistical basis of computerized diagnosis using the electrocardiogram. Other topics include the simple histogram method for nonparametric classification and optimal smoothing of density estimates.

This book is intended for mathematicians, biological scientists, social scientists, computer scientists, statisticians, and engineers interested in classification and clustering.

From reader reviews:

Douglas Reece:

Throughout other case, little folks like to read book Classification and Clustering: Proceedings of an Advanced Seminar Conducted by the Mathematics Research Center, the University of Wisconsin at Madison, ... the University of Wisconsin at Madison). You can choose the best book if you like reading a book. Providing we know about how is important any book Classification and Clustering: Proceedings of an Advanced Seminar Conducted by the Mathematics Research Center, the University of Wisconsin at Madison, ... the University of Wisconsin at Madison). You can add expertise and of course you can around the world by just a book. Absolutely right, because from book you can recognize everything! From your country until finally foreign or abroad you may be known. About simple thing until wonderful thing you are able to know that. In this era, you can open a book as well as searching by internet device. It is called e-book. You can use it when you feel uninterested to go to the library. Let's examine.

George Medrano:

This Classification and Clustering: Proceedings of an Advanced Seminar Conducted by the Mathematics Research Center, the University of Wisconsin at Madison, ... the University of Wisconsin at Madison) book is absolutely not ordinary book, you have after that it the world is in your hands. The benefit you obtain by reading this book is definitely information inside this reserve incredible fresh, you will get info which is getting deeper you actually read a lot of information you will get. This Classification and Clustering: Proceedings of an Advanced Seminar Conducted by the Mathematics Research Center, the University of Wisconsin at Madison, ... the University of Wisconsin at Madison) without we recognize teach the one who reading it become critical in thinking and analyzing. Don't become worry Classification and Clustering: Proceedings of an Advanced Seminar Conducted by the Mathematics Research Center, the University of Wisconsin at Madison, ... the University of Wisconsin at Madison) can bring whenever you are and not make your handbag space or bookshelves' come to be full because you can have it within your lovely laptop even cellphone. This Classification and Clustering: Proceedings of an Advanced Seminar Conducted by the Mathematics Research Center, the University of Wisconsin at Madison, ... the University of Wisconsin at Madison) having fine arrangement in word as well as layout, so you will not sense uninterested in reading.

Pamelia Thompson:

The book untitled Classification and Clustering: Proceedings of an Advanced Seminar Conducted by the Mathematics Research Center, the University of Wisconsin at Madison, ... the University of Wisconsin at Madison) contain a lot of information on the item. The writer explains your girlfriend idea with easy means. The language is very easy to understand all the people, so do certainly not worry, you can easy to read that. The book was written by famous author. The author gives you in the new time of literary works.
