## **Modelling the US Army M4 (75mm) Sherman Medium Tank (Osprey Modelling)** Steven J. Zaloga

The Sherman was the most widely used Allied tank of World War II and was built in larger numbers than all German tanks combined. There was also a huge number of variants, powered by different engines, and manufactured with different types of hulls and turrets. This book presents an expert guide to modelling the 75mm gun versions used by the US Army in the ETO, in 1/35 and 1/48 scale. The projects featured include an early M4A1 from Operation Husky (July 1943), an intermediate M4 during Operation Cobra (August 1944), an M4 mine-roller in the Ardennes (January 1945), and a M4A3 during Operation Grenade (February 1945).
