This book demonstrates a system-wide approach to support the learning needs of culturally, linguistically, and academically diverse students. The authors deliver a six-point model for developing improved programs, policies, and practices, including:

- **Mapping and aligning an integrated curriculum**—making the mainstream curricula accessible for all learners
- **Collaborative planning and assessment**—pooling teachers' intelligence so the whole is greater than the sum of the parts
- **Teaching students explicit learning strategies**—empowering students by taking the focus off the teacher and putting it back on learners
