Epilepsia. Enfermedad sagrada del cerebro: 0 (La Ciencia Para Todos) (Spanish Edition) Simón Brailowsky

Una de las enfermedades neurológicas más frecuentes es la epilepsia. Por lo menos 40 millones de personas en el mundo son epilépticas. "Digamos, desde ahora, que la epilepsia no es una maldición, que no es contagiosa, que no provoca locura, que no es mortal, que no se asocia forzosamente ni a daño cerebral ni a retardo mental y, sobre todo, que en la gran mayoría de los casos puede ser controlada", nos dice el doctor Brailowsky, ya que uno de los propósitos de este libro es destruir mitos por medio de la información adecuada.
