Signals and Images: Advances and Results in Speech, Estimation, Compression, Recognition, Filtering, and Processing

Signals and Images: Advances and Results in Speech, Estimation, Compression, Recognition, Filtering, and Processing cohesively combines contributions from field experts to deliver a comprehensive account of the latest developments in signal processing. These experts detail the results of their research related to audio and speech enhancement, acoustic image estimation, video compression, biometric recognition, hyperspectral image analysis, tensor decomposition with applications in communications, adaptive sparse-interpolated filtering, signal processing for power line communications, bio-inspired signal processing, seismic data processing, arithmetic transforms for spectrum computation, particle filtering in cooperative networks, three-dimensional television, and more.

This book not only shows how signal processing theory is applied in current and emerging technologies, but also demonstrates how to tackle key problems such as how to enhance speech in the time domain, improve audio quality, and meet the desired electrical consumption target for controlling carbon emissions.

Signals and Images: Advances and Results in Speech, Estimation, Compression, Recognition, Filtering, and Processing serves as a guide to the next generation of signal processing solutions for speech and video coding, hearing aid devices, big data processing, smartphones, smart digital communications, acoustic sensors, and beyond.

From reader reviews:

Michael Vu:

Have you spare time for just a day? What do you do when you have far more or little spare time? Sure, you can choose the suitable activity intended for spend your time. Any person spent their own spare time to take a move, shopping, or went to the Mall. How about open or maybe read a book called Signals and Images: Advances and Results in Speech, Estimation, Compression, Recognition, Filtering, and Processing? Maybe it is to be best activity for you. You realize beside you can spend your time along with your favorite's book, you can smarter than before. Do you agree with its opinion or you have different opinion?

Shawn Proctor:

Book is actually written, printed, or created for everything. You can realize everything you want by a publication. Book has a different type. To be sure that book is important matter to bring us around the world. Adjacent to that you can your reading ability was fluently. A publication Signals and Images: Advances and Results in Speech, Estimation, Compression, Recognition, Filtering, and Processing will make you to end up being smarter. You can feel far more confidence if you can know about everything. But some of you think that open or reading the book make you bored. It's not make you fun. Why they could be thought like that? Have you in search of best book or ideal book with you?

Brenda Wright:

What do you with regards to book? It is not important together with you? Or just adding material when you need something to explain what the ones you have problem? How about your spare time? Or are you busy person? If you don't have spare time to complete others business, it is make one feel bored faster. And you have free time? What did you do? Every person has many questions above. They have to answer that question mainly because just their can do this. It said that about reserve. Book is familiar on every person. Yes, it is appropriate. Because start from on jardín de infancia until university need this specific Signals and Images: Advances and Results in Speech, Estimation, Compression, Recognition, Filtering, and Processing to read.

Aaron Edgington:

You may get this Signals and Images: Advances and Results in Speech, Estimation, Compression, Recognition, Filtering, and Processing by check out the bookstore or Mall. Just viewing or reviewing it may to be your solve difficulty if you get difficulties for ones knowledge. Kinds of this guide are various. Not only by means of written or printed but additionally can you enjoy this book simply by e-book. In the modern era just like now, you just looking by your mobile phone and searching what your problem. Right now, choose your own ways to get more information about your guide. It is most important to arrange yourself to make your knowledge are still upgrade. Let's try to choose suitable ways for you.
